PROPS EXHIBITS

YOU ASK
"what if."

WE'LL TAKE CARE OF THE REST.

Fusiform designs and builds interactive props, exhibits, and artistic installations for our clients.

Founded in 2013, Fusiform has collaborated with clients in various industries to create interactive activations and permanent installations that perfectly merge digital elements with the physical form.

WHAT WE DO:

CUSTOM DISPLAYS

From concept to install, often with interactive elements that invite people in.

EVENTS & FILM SETS

Transforming spaces into something completely new.

PROPS — BIG & SMALL

From handheld pieces to oversized installs, we build them on schedule without losing detail.

SIGNAGE & BRANDING

Wall-mounted lettering, push-through signs, and oversized moveable letters that set your brand or event apart.

SCULPTED FORMS

Foam carving, sliced laminations, and shaped elements with incredible finishes.

TECH INTEGRATION

iPads, screens, lighting, sensors, and more — all blended seamlessly into the build.

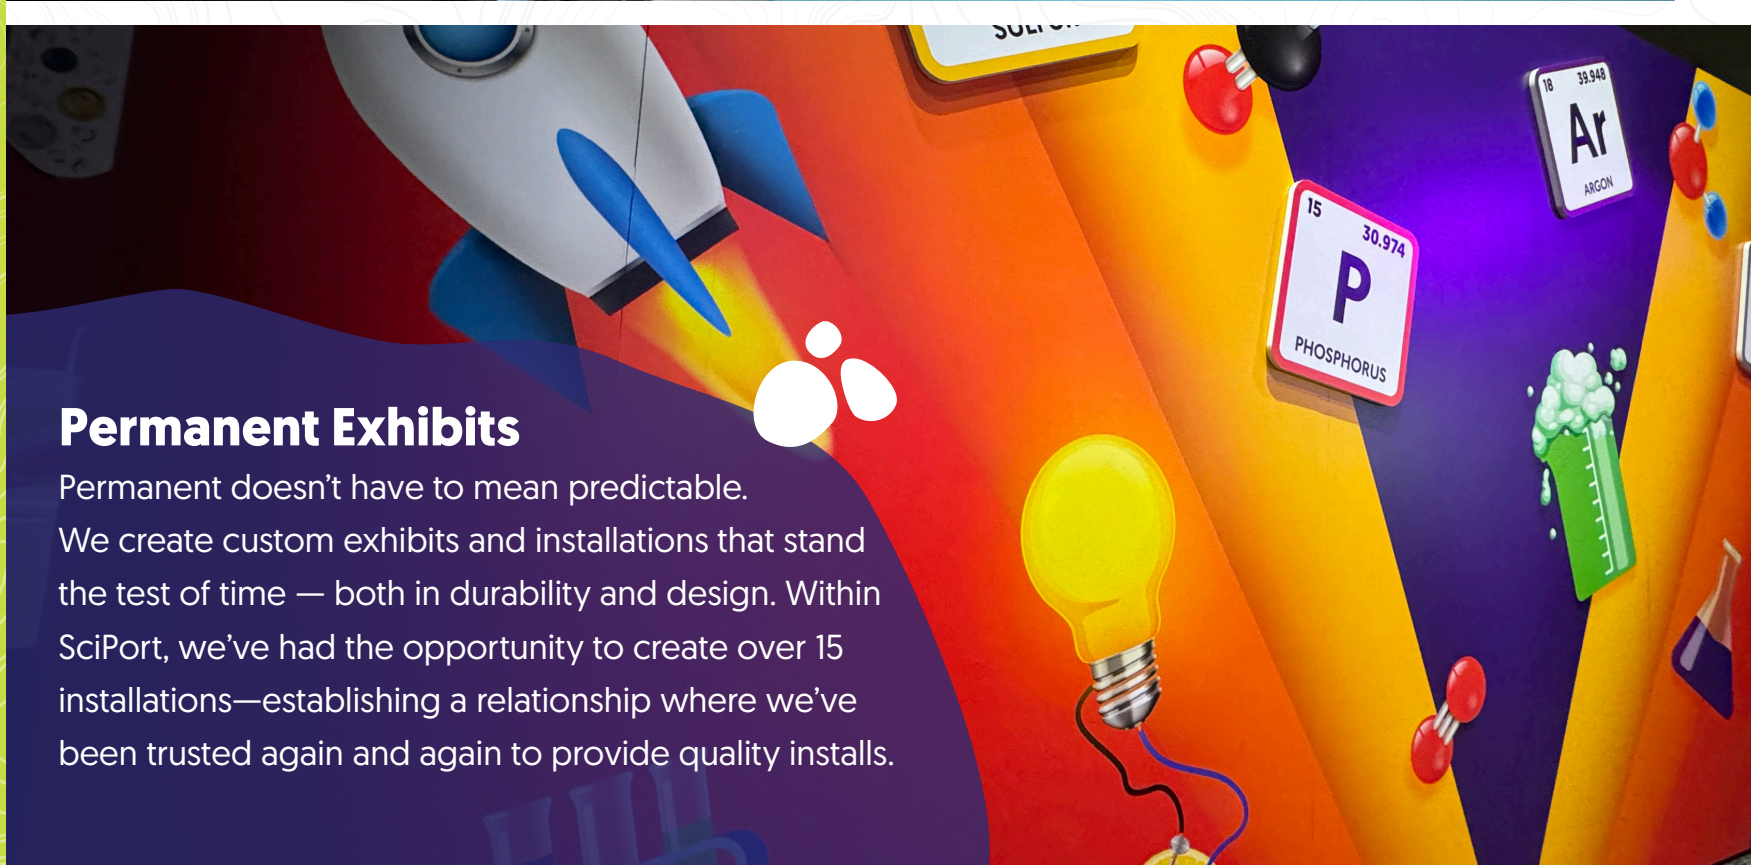

WHY WORK WITH US:

PHYSICAL AND DIGITAL BUILDS UNDER ONE ROOF.

FROM SKETCH TO INSTALL — WE HANDLE EVERY STEP.

SMALL TEAM AGILITY, BIG PROJECT CAPABILITY.

EVERYTHING FROM SMALL PROPS TO MUSEUM-GRADE INSTALLS.

Permanent Exhibits

Permanent doesn't have to mean predictable. We create custom exhibits and installations that stand the test of time — both in durability and design. Within SciPort, we've had the opportunity to create over 15 installations—establishing a relationship where we've been trusted again and again to provide quality installs.

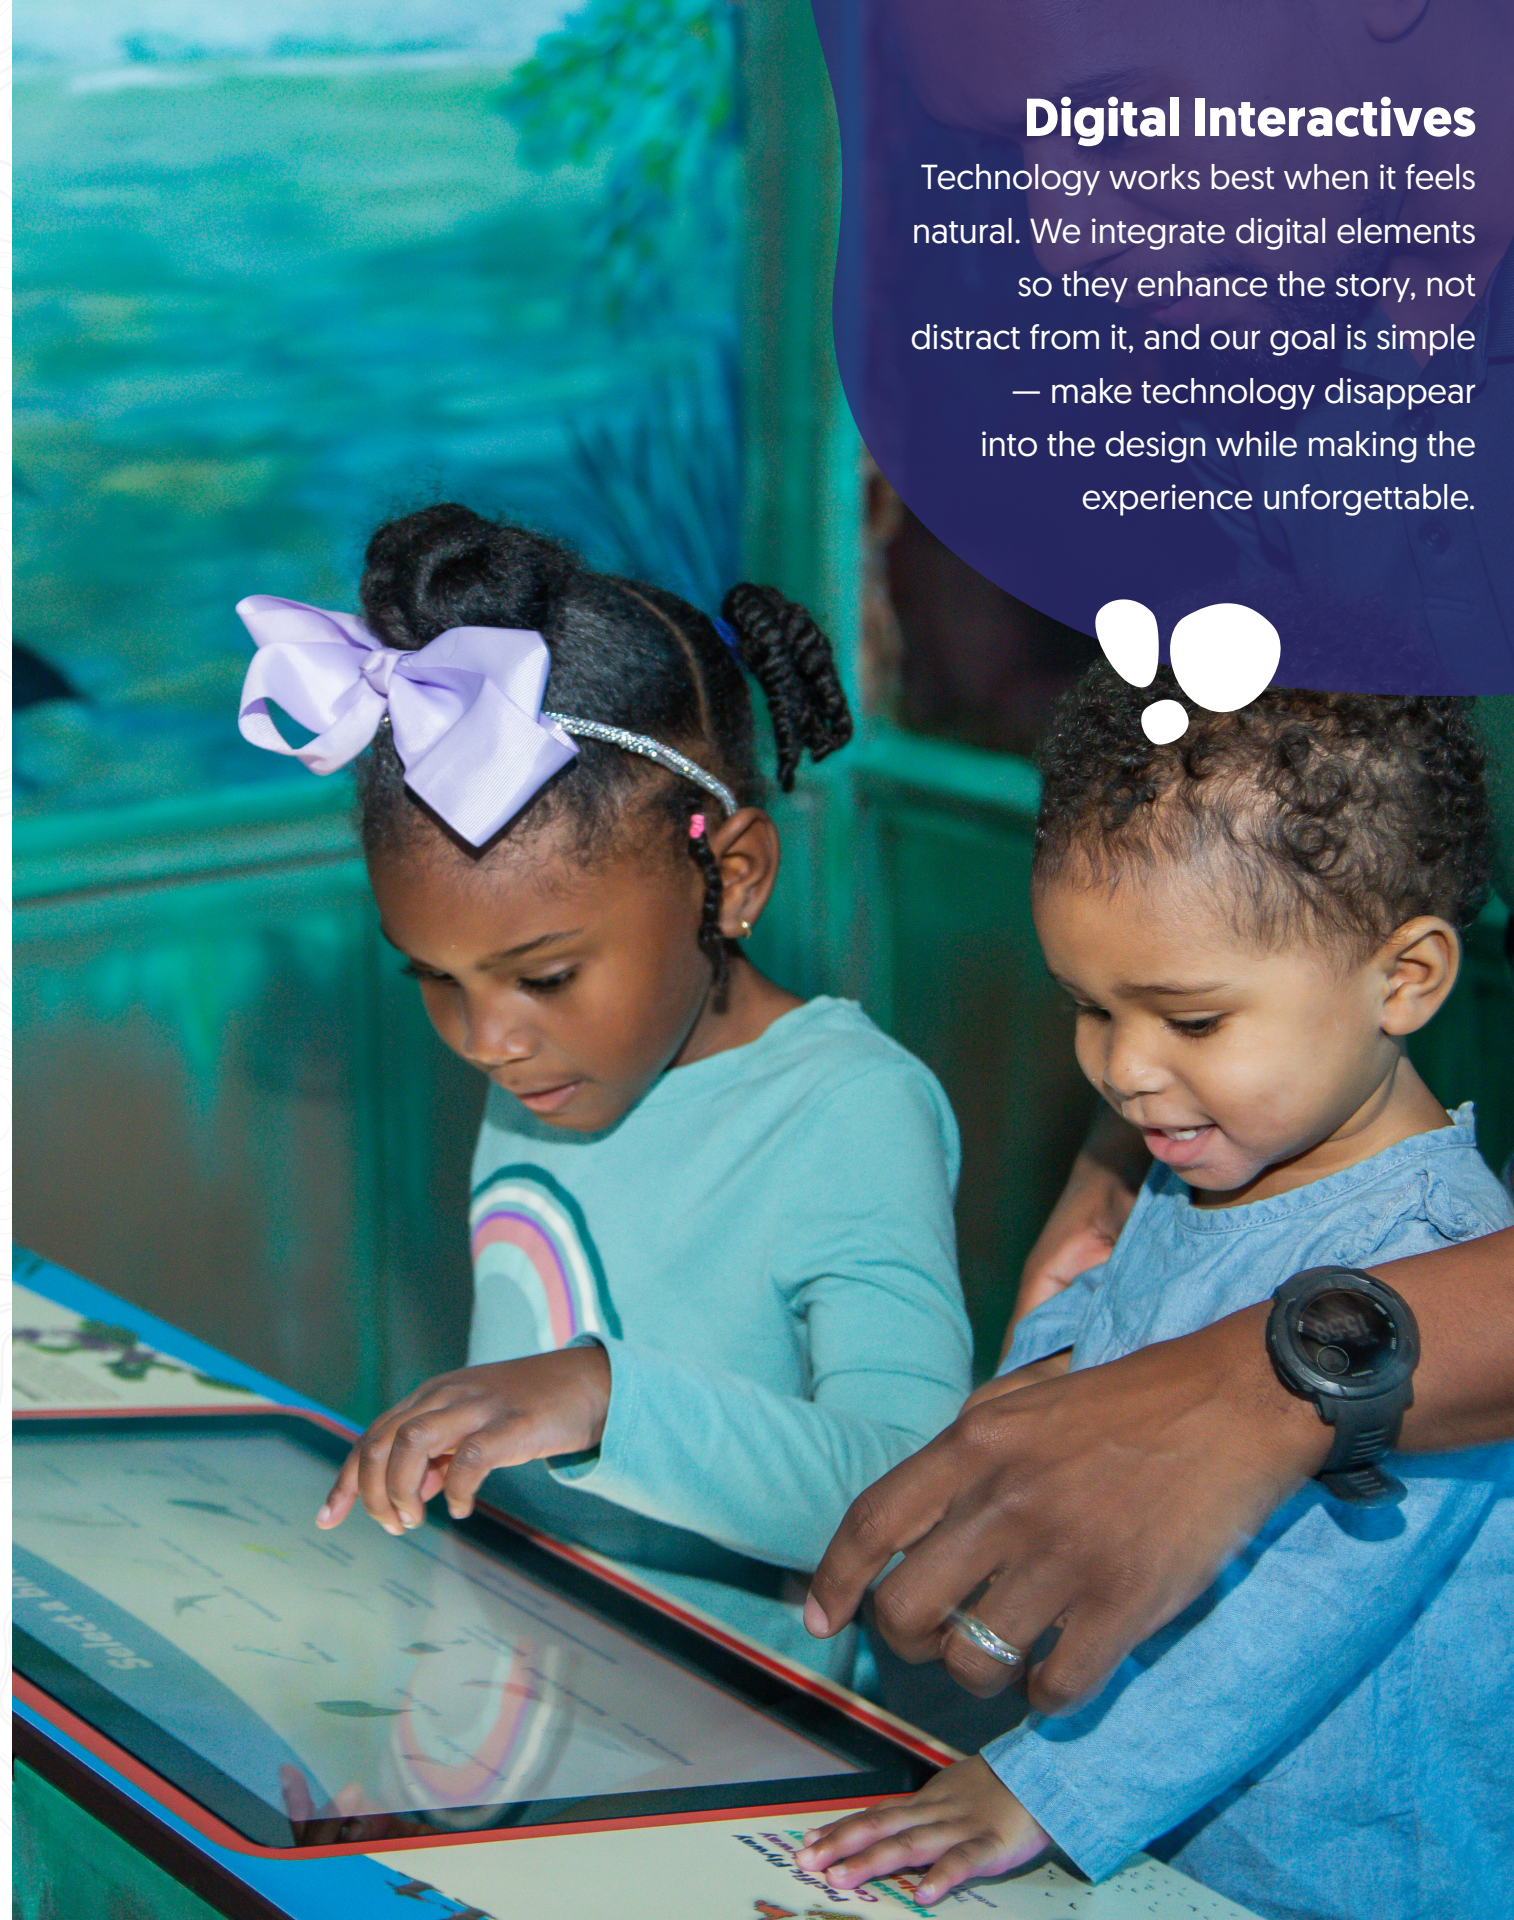

Full-Scale Play Area

This intensive project was at Sprout Playcafe in Shreveport, Louisiana—which included over 15 finished elements and hundreds of pieces. From creating age-appropriate slides and ballpits to a food truck and open-ended play centers, this job was a blast!

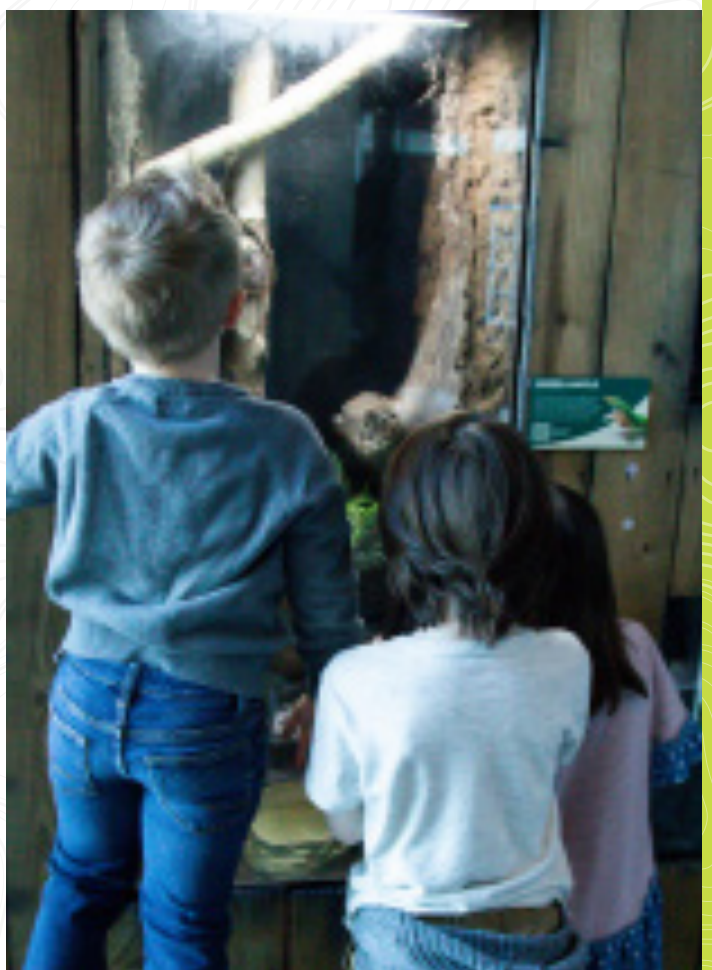

Digital Interactives

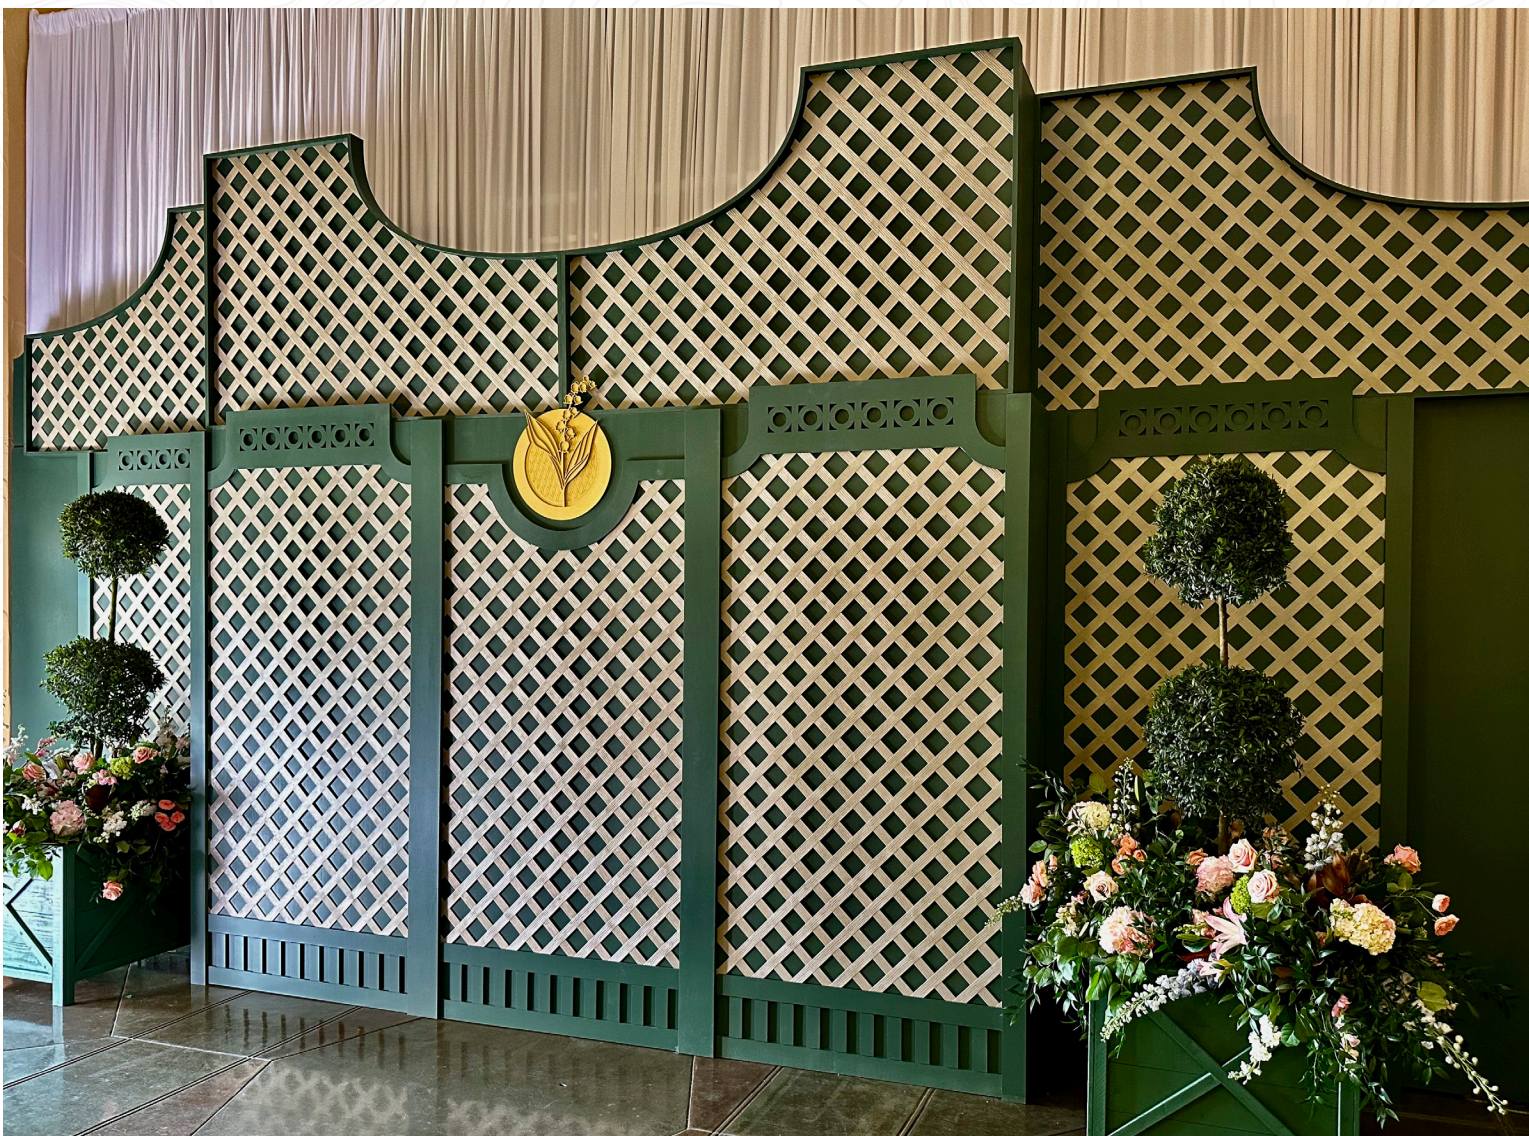

Technology works best when it feels natural. We integrate digital elements so they enhance the story, not distract from it, and our goal is simple — make technology disappear into the design while making the experience unforgettable.

Aquarium Enclosures, Exhibits, and Signage

From small exhibits to wall-sized murals and aquarium enclosures, we've done it. This particular job included heated custom themed animal enclosures, sounds, lights, hand sculpted pieces and much more!

Setting The Scene

Our local cotillion club leans on us to set the scene for their grand events each year. Large stage sets and intimate lobby settings really help the vision come together.

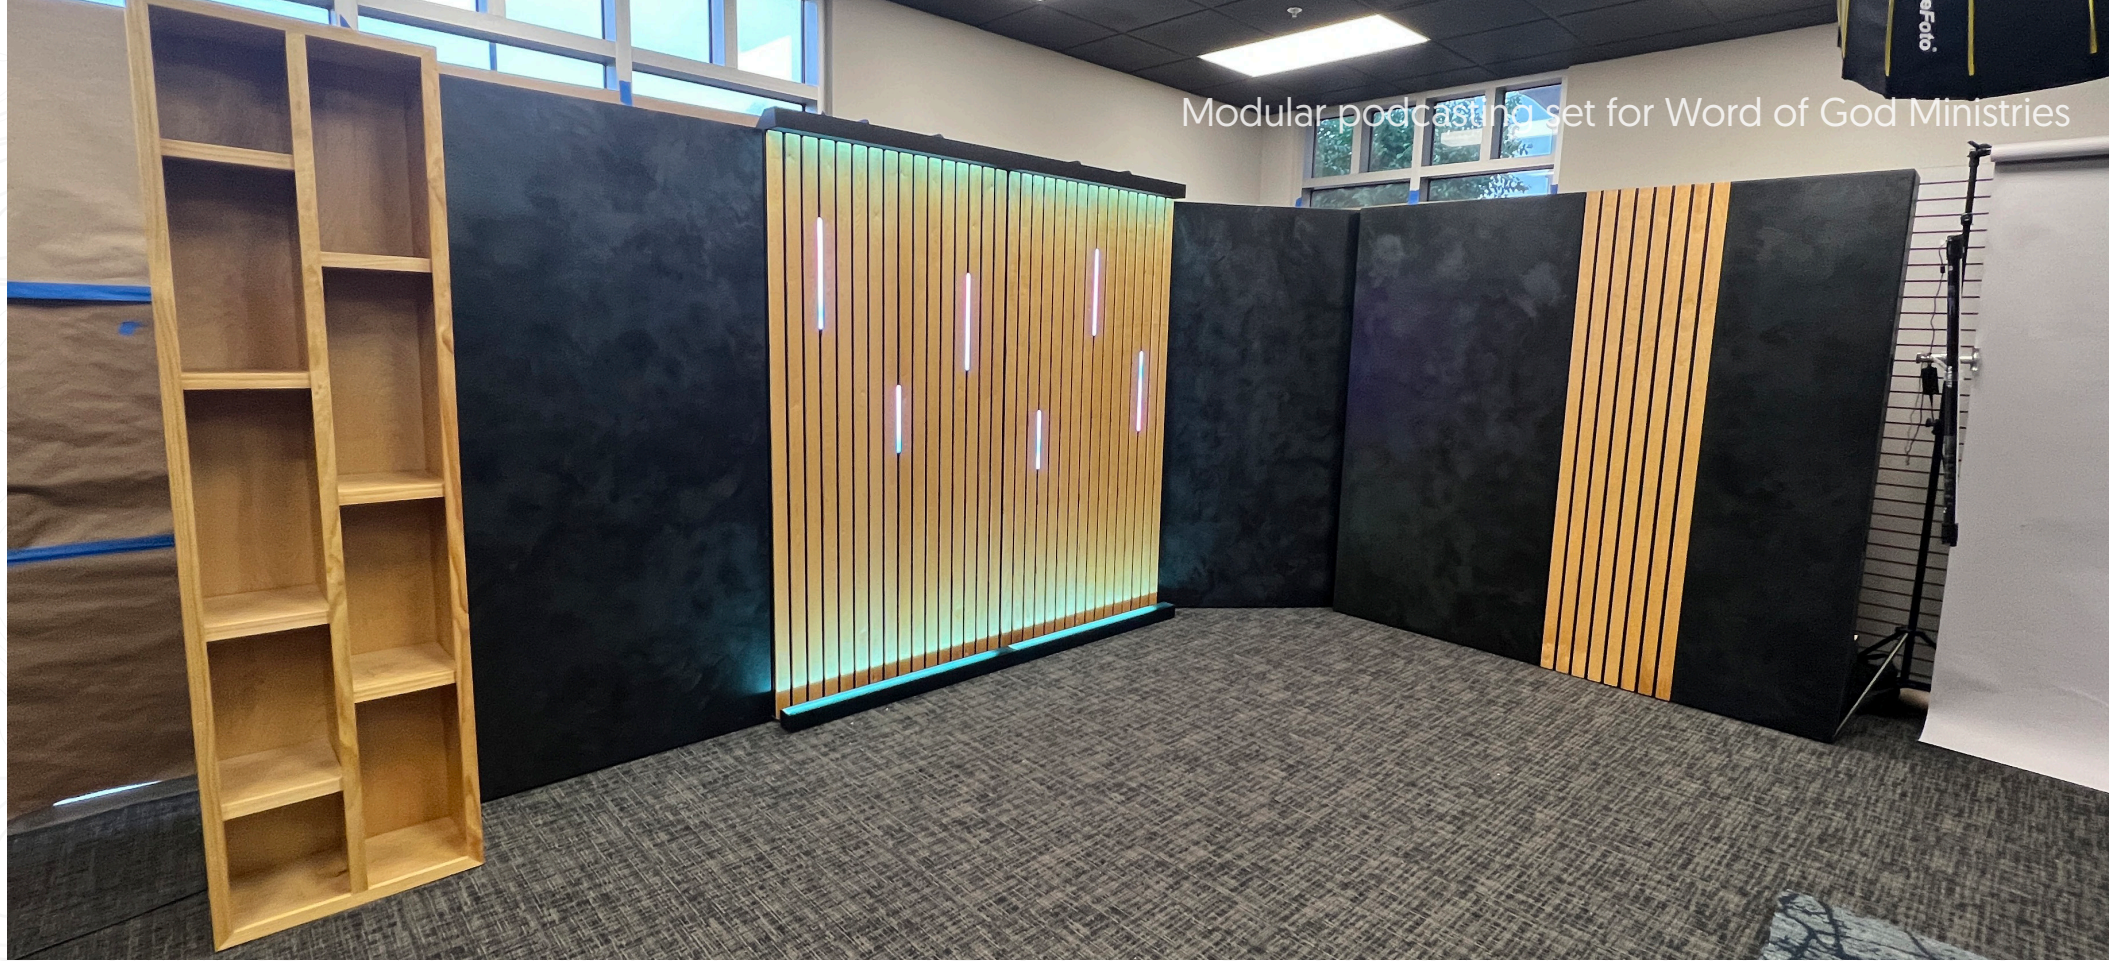

Patina Short Film

This unique project challenged us to create complimenting sets at two different scales. The first at full scale and the second at 2/3 scale.

Commercial set for Carter Credit Union

Modular podcasting set for Word of God Ministries

Educational set for Captain Shreve High School

Out of This World

Sometimes we have a client come to us and say “I’ve got a WILD idea, and I can’t find the pieces I’m dreaming of ANYWHERE. In this case, the client needed set pieces that sold the location as an alien ship.

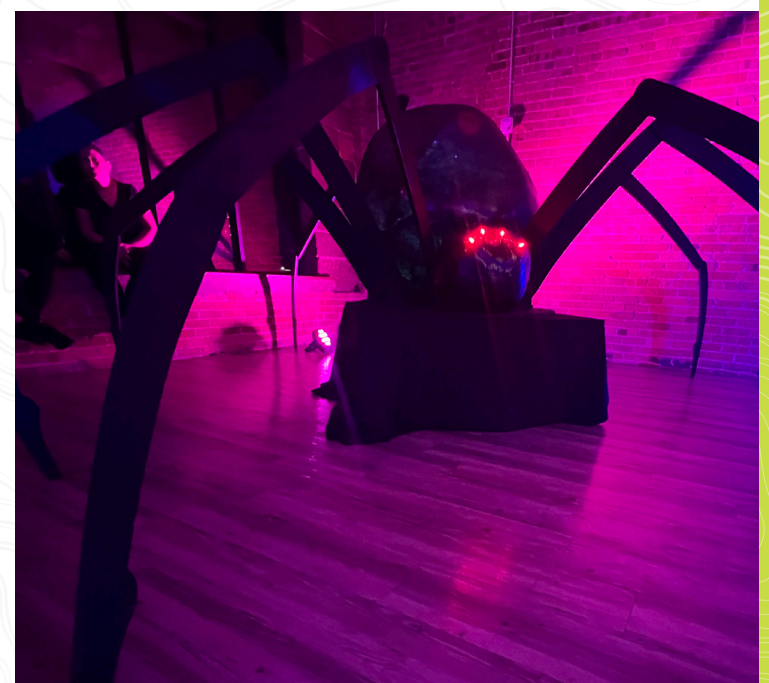

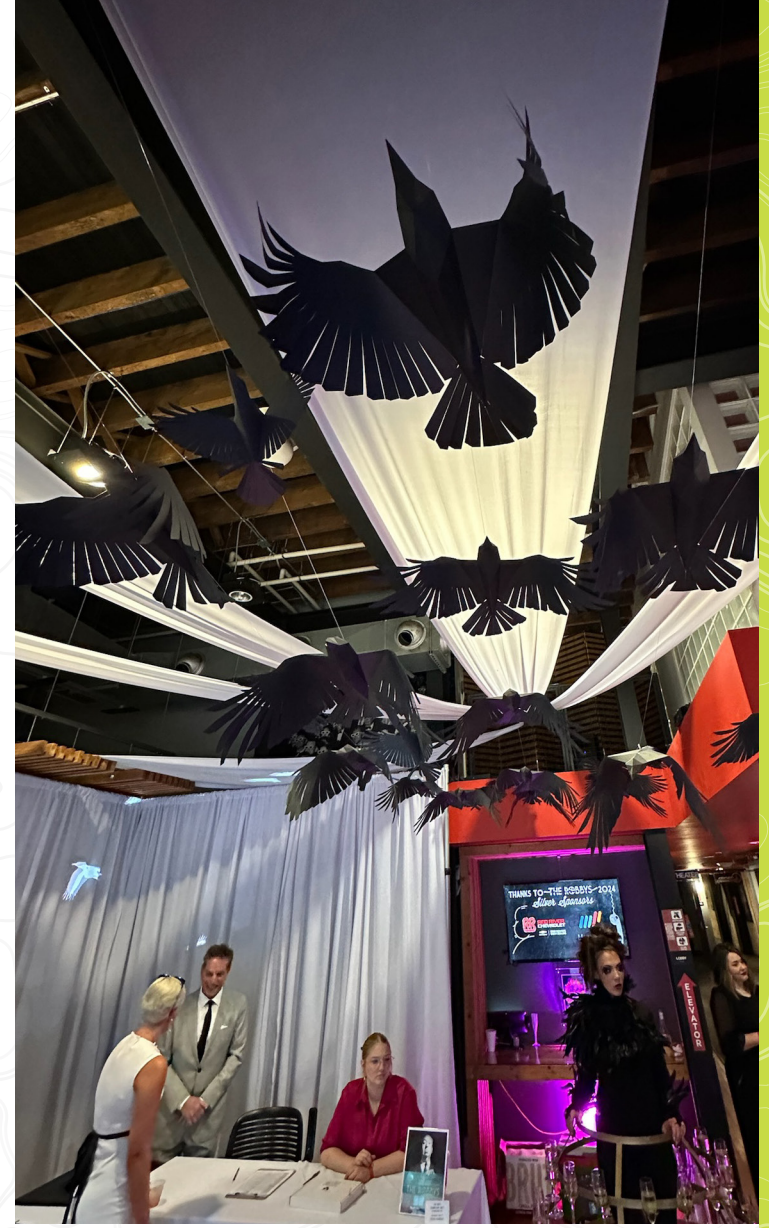

Large Props

This file was in need of a MRI machine that they could film inside of and safely around. So we stepped in a build them this gorgeous piece that met all of their technical specifications and logistical needs.

Event Props

Every detail matters — even if it's only on display for one night or a weekend. Whatever the theme we custom craft pieces that immerse the guest in your vision for the event.

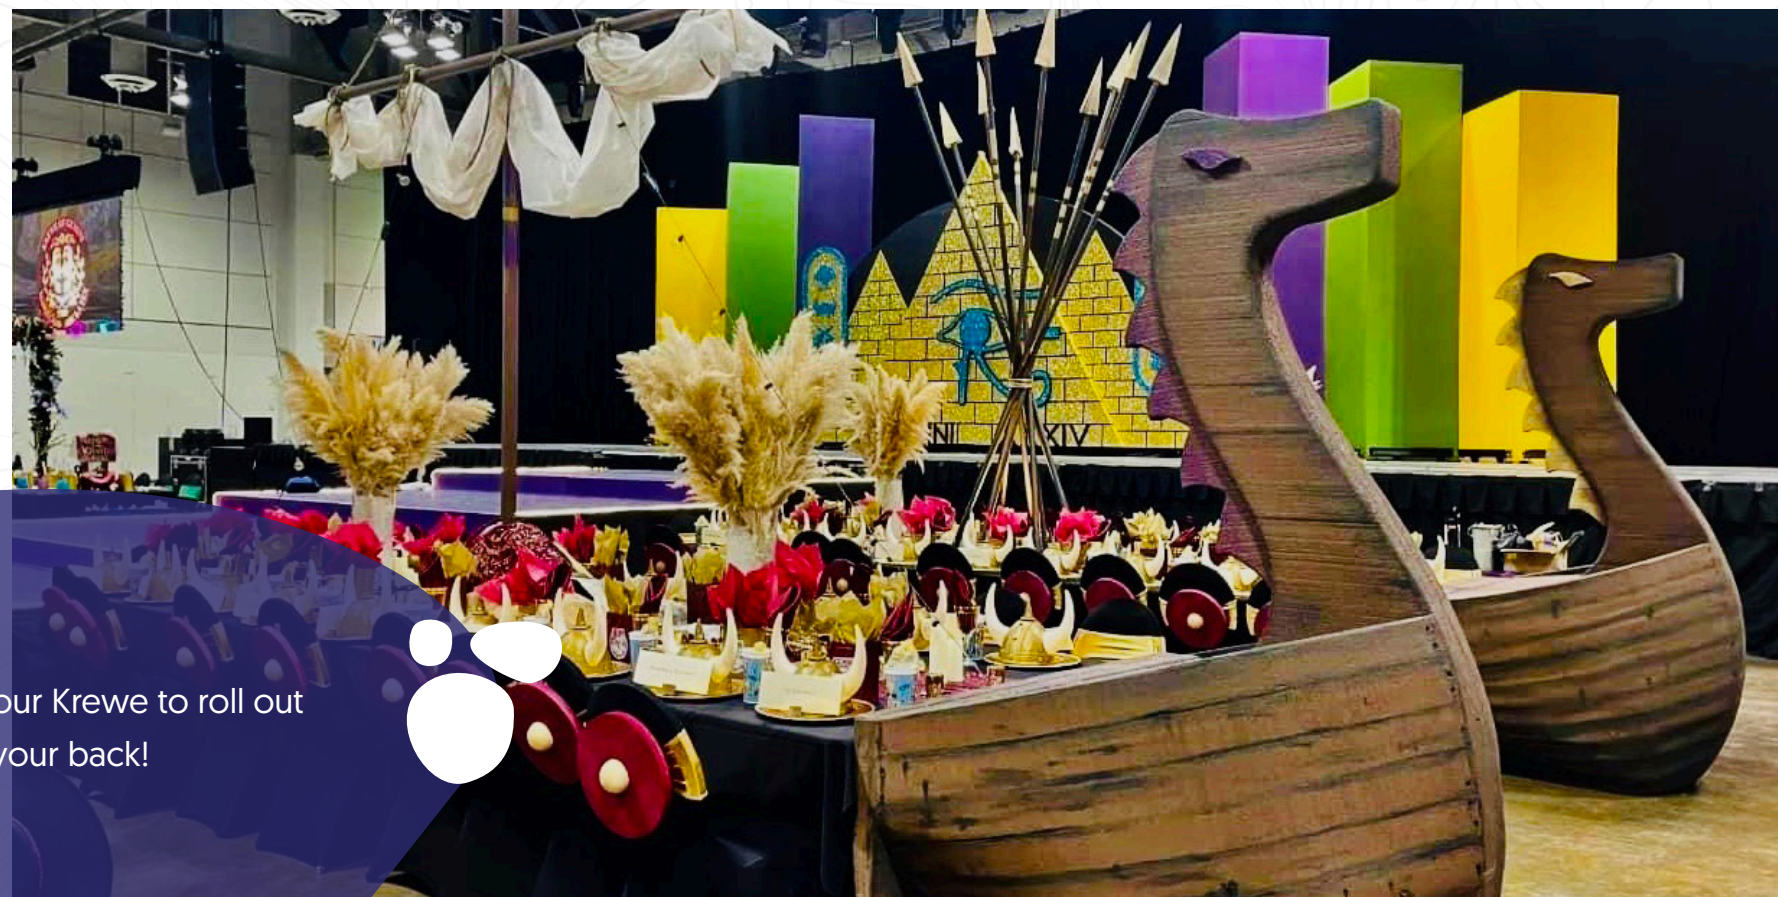

Say It Louder

Sometimes it's a name, sometimes its a phrase, but oversized letters like these always make a statement!

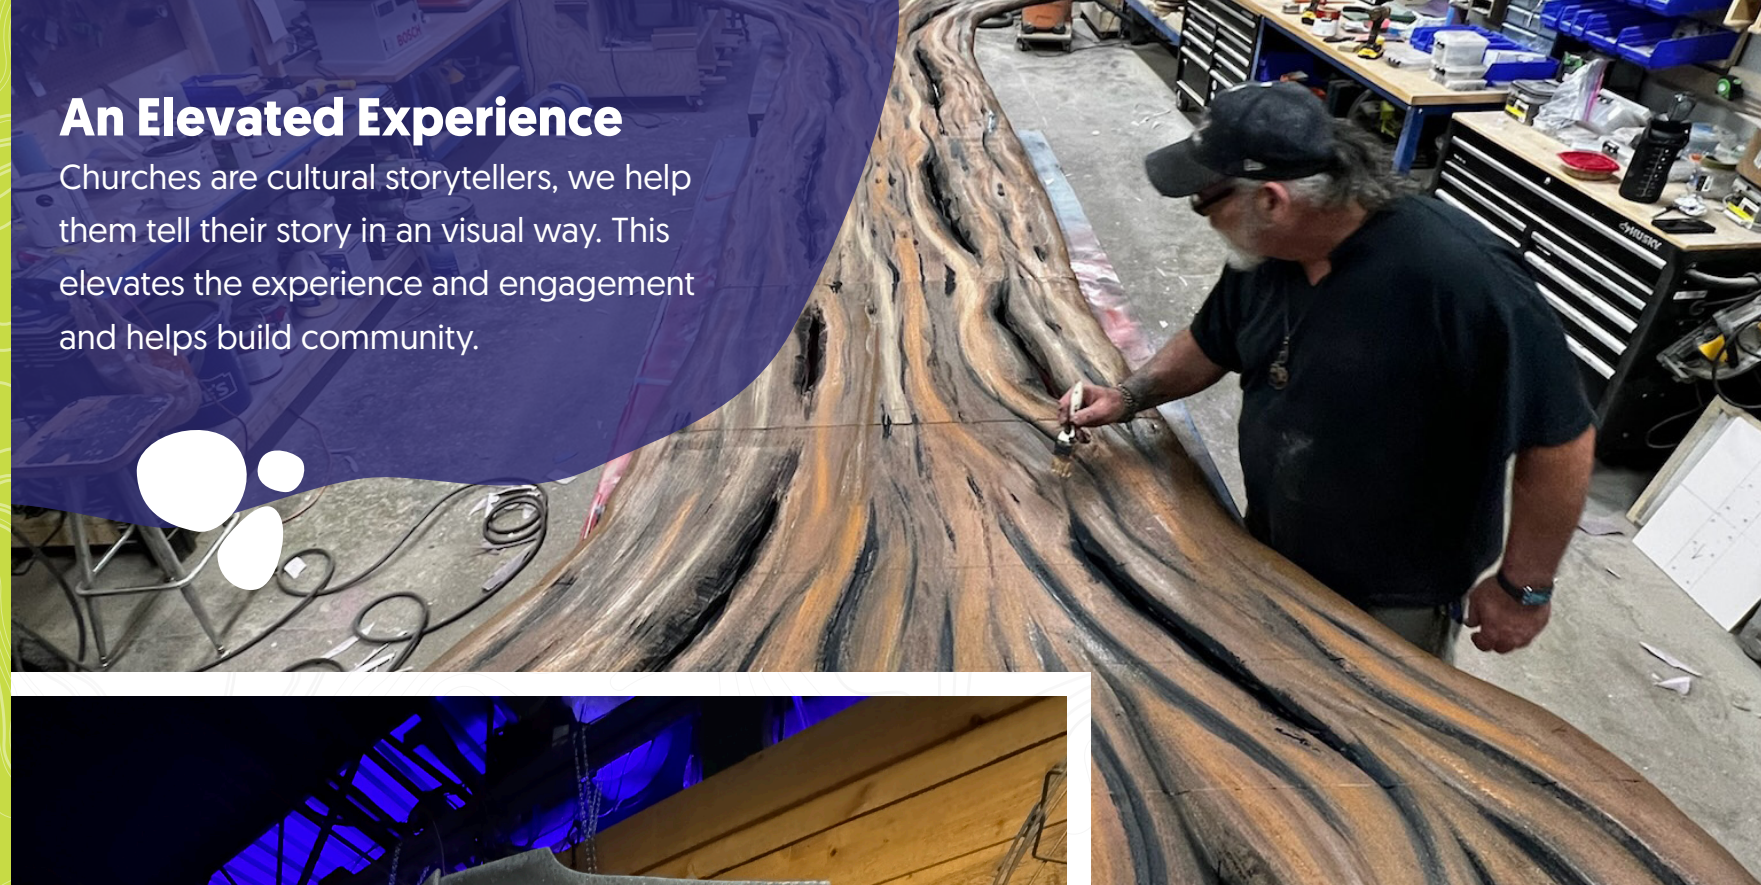

Mardi Gras

When its time for your Krewe to roll out in style, we've got your back!

An Elevated Experience

Churches are cultural storytellers, we help them tell their story in an visual way. This elevates the experience and engagement and helps build community.

CHURCH STAGE PROPS

Anything But Ordinary

When you need a sign you call a sign shop. When you want to make a statement about your brand with visual flare you call us! Interior stylized pieces like these are a great way to refresh a space and tell your story.

No Prop Too Small

For films, events, or just because! We custom design and fabricate any size prop to meet your need.

DREAM. *Design.* DELIVER
